BLAIRMORE ALBERTA

The Sacrament of Confirmation will be administered by Bishop Pinkham, of Calgary, at St. Alban's church, Coleman, at the 11 a.m. service on Sunday next.

Atlasette Bros., of Maple Leaf last week purchased the entire stock of A. Poggiali, the greater portion of which has been moved to Maple Leaf.

## Council Holds Tame Meeting

The regular meeting of the Blairmore town council on Monday night had a rather tame significance. There were present the mayor and councillors Sinclair, Dutil and Beebe. Following the approval of the minutes of the previous meeting, the following communications were received:

The Canadian Municipal News re the publication of a municipal gazetteer, and asking that Blairmore be represented.

Filed.

Campbell & Gillis, enclosing account for drafting certain legal documents.

L. H. Putnam, informing the council that The Town had won against the action of J. R. Irwin.

Mayor Quimette, of Coleman, re the action of the provincial mayors on their recent visit to Edmonton.

A. Morency and R. C. Green, tenders for water connections. Referred to waterworks committee.

A. McLeod and Ella Royal, offering site for nuisance ground.

C. Dicastro, bandmaster, re the band proposition. Filed.

The Keystone Cement Co., accepting terms quoted for nuisance ground site.

W. A. Beebe made a written offer to the town of a site on Victoria Street east, in exchange for the town Malcolm lots, as a site for fire hall and municipal building. Given cool reception.

The following letter from C. Dicastro was read and placed on a file near the refrigerator.

Blairmore, Alta., April 20th, 1914.

To The Town Mayor Blairmore, Alta.,  
Dear Sir: I wish to inform you that Mike (Rosa) and I are the devil and crew, but M. Rosa and W. Beebe are as brothers, so re the band grant proposition it never will be settled until this matter will be held by Beebe who is under the power of Rosa. By the town Clerk I been informed yesterday morning that you and councillors delegated W. Beebe to attend to it, so, I went and saw Beebe and the only answer I had from him was that, (according to his plan), the town council must hear SOME band and should hear SOME music. By all those were at the council meeting last Monday night I been informed that you and councillors showing themselves to be in favor to the application that the band made. I want you and Councillors to decide about it and the band and I will consider satisfactory any kind of grant that you might will give for supply open air concerts every Sunday 8.30 p.m. during summer. Hoping will you kindly take the matter up.

Yours truly

C. DICASTRO,  
Blairmore Bandmaster.

Councillor Beebe moved that The Town purchase the site offered by A. McLeod and Al for the sum of \$900, the land being the west corner of the N. E. Quarter Section 26, Township 7, Range 4, West of the Fifth Meridian, two acres running east from the corner post and three acres south, thence two acres west to the boundary line, making six acres in a block, the purchase to be subject to The Town being given a clear legal right-of-way to the property. No second.

Sinclair-Dutil—That the Secretary be instructed to have a lease prepared between The Town and the Keystone Cement Co. for a nuisance ground, the lease to run from year to year on thirty-day notice, rental to be amount of current taxes per annum. Carried.

Several accounts were read and passed.

R. Meek, of Kingston, Ontario, secretary of the Oddfellows' Relief Association, is visiting the Oddfellows' lodges in northern Alberta.

## Execution of Frank Haynes

Sydney, N. S., May 12.—Frank Haynes was hanged for the crime of murder at 5.41 Friday afternoon. Mr. Justice Drysdale refused again to interfere in the case of Haynes. As a result of the confession made by Haynes implicating two others, the Department of Justice, at Ottawa, was convinced with to obtain a stay of execution. The department referred the matter to Mr. Justice Drysdale, the trial judge, who advised that the application had not been granted.

## Chinese Lodge Draws Line at Police Chief

Certain celestials in Calgary are of the opinion that no one, not even the chief of police, should enter their Masonic rooms without first having been properly and duly initiated and with out having first given the password, countersign and mystic knock. However, Chief Cuddy, having ridden the post and having been admitted to the Royal Arch degree under the Scottish rite, held an opinion that he should not be subjected to these conditions. This being the case, he made the defendant in an action that will be heard this week before his lordship, Mr. Justice Beek, whereby Frank Yen and other Chinamen seek \$1,000 for unlawful entry. The chief claims that they were armed with a search warrant upon their last visit, which is called a raid, and that he had authority to make a forcible entry. But when the entry was made there was one—and only one Chin—in view. This was the janitor and there was a speck of dust that had hidden in the northeast corner of the room and for which he was assiduously searching, but there was no trace of any gambling game and this was that for which the police were looking.

## Local and General

Mrs. Green, who had spent the week at the Rhodex ranch, Lundbreck, returned to town on Thursday.

The Hall and Menzies Vaudeville Co. appear at the Hillcrest Theatre on Saturday night, and at the Blairmore opera house on Monday next. This is a company of accomplished English comedians who are touring the world and are meeting with huge success everywhere.

In High River last week a Chinaman was fined one dollar and costs for riding a bicycle on the sidewalk. Bicycles are almost as common on the sidewalks of Blairmore as people on foot, and no steps have been taken by the chairman of the police committee to put a stop to it.

The Blairmore tennis club will give a ball in the opera house on Friday night next, for which a large number of invitations have been issued. The opera house is being specially decorated for the occasion, and the floor will be in first class order. The Bellevue orchestra will furnish the music and a right good time is expected.

The new Anglican church at Hillcrest will be opened and dedicated on Sunday evening next, at 7.30, by Bishop Pinkham, of Calgary, assisted by Rev. D. Watkins-Jones, of Coleman. The church, which has just been completed and is admirably situated. At the opening service, Mr. Samuel Charlton will be openly admitted as lay reader.

The local opera house, which has just been taken over by Mr. J. A. Osborne, is undergoing a complete interior renovation, and when completed will compare favorably with any amusement house in Southern Alberta. We understand that it is the intention of the present management to install a system of portable sectional floors for roller skating purposes, so as to preserve the main floor for dancing.

The provincial government have built a moving picture theatre in the old parliament building at Edmonton. After May 1st all the

Keeping Her Hand In

Yes, sir, said the barber, dutifully rubbing the latter into the scalp of the patron, I was ship's barber on a trans-Pacific steamer for five years and I was out away on an island in the south seas.

Lived there for two years and never saw a human being, but when I was rescued I latter myself I was a better shampooer than ever. I kept in practice all the time.

How did you manage it? asked the patron.

I shampooed the coconuts.

Mother (reading) — It is always damp where they raise mushrooms.

Little Lola — Is that why they look like umbrellas?

## Preparing Land for Grain Crops

In view of the fact that every year brings to the Northwest many new settlers who are unacquainted with the methods of breaking and preparing land for crop, and that the success or failure of a new settler often depends on the method employed in the preparation of the land for his first crop, there has been issued by the Department of Agriculture a bulletin on preparing land for grain crops on the prairie. This pamphlet, of 32 pages, containing many instructive illustrations, was compiled by Mr. J. G. Gifford, B. Sc., Director of Experimental Farms. It presents a summary of many years of careful study on this problem. By Mr. Angus Mackay, who for twenty-five years was Superintendent of the Experimental Farms for south-eastern Saskatchewan, at Indian Head.

Some valuable points are also given as to the breaking and later treatment of new land by the Superintendent of the Experimental Stations at Saskatoon, Lethbridge and Lacombe, Alberta, and Brandon, Manitoba.

This bulletin, No. 15 of the Second Series of Experimental Farms, is intended for those who are directly interested in the subject treated and to all such, upon receipt of application, a copy will be mailed by the Publications Branch, Department of Agriculture, Ottawa.

## Waste on Farms

A Wisconsin farmer presents to the public an explanation of the waste on farms, which is interesting and not without importance. In his country dairy products are the staple, though nearly every farmer does other farming. For instance, practically every farmer has a small orchard yielding him more fruit than he can use himself. So the farmer uses what he can, but the surplus is not sufficient to pay for shipping. The barrels cost too much bought at retail.

I, myself, he says, have tried shipping in years past, but I failed to give it up or acknowledge that I was a philanthropist. Of course, I gave it up. I have since then made a specialty of making and making it no longer. The apples now rot where they are.

For does this complaint fail to suggest a remedy. He says:

If the surplus apples were collected by a man who made a business of it, owned beside a cider mill and a factory for turning out apple butter, the apple industry would pay. The same principle might be applied to, the same man to the saving of garden truck, whose only use is to fertilize the soil. Almost every farmer has his garden patch; he uses what he can, saves away as much as possible and allows the rest to go to waste. Why, I tell you, it fairly makes one sick to drive through my country and see the stuff rotting on the vines. The farmer isn't blind; he knows the waste is appalling, but he is powerless. And he will never be able to help the people in the cities until some scheme is hit upon for collecting and handling this waste in an economic manner. We farmers talked about a co-operative association at one time, but we were busy with other things, and no progress was made. We were willing to raise all sorts of commodities, but we didn't, apparently, like to undertake the distributive problem, and there you are.

The late Maurice Barrymore was the "big of the Ladies" during his life. He was a member of the club that club delight in citing instances of his ready sympathy or sympathy wit.

One day, so the story goes, Barrymore was swinging down Fifth avenue when Sidney Rosefeldt, the plain-wright, rushed up to him, all excitement.

Mr. Maurice, he yelled, have you heard of my misfortune?

No, Barrymore sympathized, is there illness in your family?

Not that. My little boy, five years old, got hold of my new play and tore it to tatters.

I didn't know the child could read, said Barrymore, and continued to walk.

A lady returning home unexpectedly, found her front door open and a drag-lugroom for the purpose of giving a select party to her friends. Ann, I am surprised she calculated.

So am I, ma'am, replied the unabashed girl. I thought you wouldn't be back for a fortnight.

Upon what does Torpid-life base its expectation that its name will go thundering down the ages?

It has not asked for a federal review bank.

## The Crin of a Fad

Marcella, who had been eating out of the window, suddenly began to laugh hysterically.

What in the world is the matter, child, asked her mother.

When I finished my carpat rug, Marcella explained, I folded it across my lap and carried it that way down the street to show it to Rosemary.

Well, what of it?

That was only three days ago, grasped Marcella, with a renewed outburst of merriment and now nearly every girl in the block is wearing a carpat rug.

Now, children, said the teacher to the junior class in arithmetic, if I had nine yards of cloth and used five to make a shirt and three to make a jacket, what would I have left?

A lot of rags, promptly answered the little girl at the foot.

Three Germans were engaged in a confidential talk while dining together in a Broadway cafe a few days ago.

Their conversation drifted from politics to the second marriage of a mutual friend, when one of them remarked:

"I tell you that a man that marries for a second time don't deserve to have his first wife."

It is well to have vision. Of a better life than that of every day, but it is the life of every day from which elements of a better life must come.

## Make Noise When You Eat

Cultured people do not make a noise when they eat. This is all well and good in an aesthetic way, and had in a hygienic way, says a doctor. The elimination has deprived the act of eating of a healthy gusto that makes for love, a good appetite and fine digestion.

It is natural to make a noise when you eat. Try it some time when you are in private and see how much more vim and actual physical enjoyment you take away your meal.

The little untrained child enjoys the candy it sucks audibly and smacks its lips over 100 per cent more than the self-controlled older person who eats candy with constant care not to make the least sound while doing so.

I have often advised a patient coming to me for advice about a languid appetite to eat alone and smacking over the food like an untaught child or a laborer for a while, just to learn how to relish food, then after having learned to return to polite society determined somewhat by attitude of mind and the presence of physical ailments.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child infested with worms is nervous, always unsteady and will be stunted in its growth. It is a merciful act to experience during some of the bad attacks was simply unmentionable.

To use remedied by the score without permanent relief was might, discouraging. At last I put my faith in Miller's. I read of the wonderful pains and cured the headache. Continuous treatment with this magic-worming cured me entirely, and I have never since been troubled by them.

Mr. Evans' case is but one of hundreds that might be quoted. ## Higher Voltages

A general tendency toward higher voltages in electric transmission plants is apparent. One plant, for instance, in California, is now being built to handle a current from Big Creek, Cal., to Los Angeles, 240 miles, at an initial pressure of 135,000 volts. The line will be 100 miles long and will require 100,000 tons of steel. The line will be 100 miles long and will require 100,000 tons of steel. The line will be 100 miles long and will require 100,000 tons of steel.

Reverend Pater (doing an odd job with the church fence) — You appear to be watching me very closely, boy.

Donald, Donald, said a fellow Scot. Why do you run faster?

Boy — Pater — Then what are you waiting for?

Boy — I'm waiting to hear not a person says when he hits his thumb with the hammer.

## Magic Effects on Neuralgia

Throbbing Pain Goes Quickly

A YEAR'S SUFFERER CURED BY NERVINE

No person realizing this need ever again suffer long from Neuralgia. Nervine will quickly cure the worst Neuralgia, and Mrs. A. Evans, in her strong letter written from Russell post office, says: "One long year, the longest of my life, was almost entirely given up to treating dreadful attacks of Neuralgia. The agony I experienced during some of the bad attacks was simply unmentionable. To use remedied by the score without permanent relief was might, discouraging. At last I put my faith in Nervine. I read of the wonderful pains and cured the headache. Continuous treatment with this magic-worming cured me entirely, and I have never since been troubled by them."

Mr. Evans' case is but one of hundreds that might be quoted. Nervine is a specific for all nerve, neuralgic, sciatic, lumbago, rheumatism, etc. It is a specific for all nerve, neuralgic, sciatic, lumbago, rheumatism, etc. It is a specific for all nerve, neuralgic, sciatic, lumbago, rheumatism, etc.

## A Hindu Immi- gration Test

If there is to be a test of whether  
Hindus can land in Canada in defiance  
of governmental regulations, under the  
Immigration Act, it may as well be made  
now as later. The principle of keeping  
British Columbia a "white man's" province  
must be upheld, and the government  
which refuses to let legal technicalities  
interfere with stern adhesion to the  
principle will undoubtedly act in accordance  
with the wishes of the Canadian  
people. The order from the department  
of the interior to immigration officers at  
Victoria and Vancouver that the 400  
Hindus sailing from Shanghai to Vancouver  
must not be allowed to land in  
conformity with the order-in-council of  
March 31st prohibiting the entry of artisans  
or laborers into British Columbia  
through any of the ports. Chief Justice  
Hunter's decision against the immigration  
regulation regarding a continuous  
passage of immigrants entering British  
Columbia does not effect orders barring  
all immigrants, artisan or laborer type  
from entry into British Columbia. It  
merely should prove to be long enough in  
the way to free influx of Asiatics,  
there would be an immediate demand  
for an act of parliament proof against  
the legal "coach and foot." The Hindu  
immigration decision differs from that of  
Singapore or Chinese immigration, be-  
cause the Hindus are British subjects,  
claiming equality with other British sub-  
jects in other parts of the Empire, and  
entrance thereto on equal terms. The  
Hindu problem involved make it very  
necessary that restriction of expulsion  
applied by Canada shall be discreetly  
managed and that the general order  
barring all artisans and laborers should  
prove effective under present circum-  
stances.—Toronto Mail and Empire.

## New Governor General

Prince Alexander of Teck, the  
third son of the late Duke of Teck,  
is to succeed the Duke of Connaught  
as the new governor-general of  
Canada. Official announcement  
of this effect was made on  
May 14th.

Prince Alexander of Teck is forty  
years old. He was married in 1904  
to Her Royal Highness Princess  
Alice of Albany, and has one son  
and one daughter. He is at present  
a major in the second Life  
Guards, is a good soldier, and has  
seen active service in the Malakka  
trouble, and also in South Africa  
for two years.

## Meeting of Liquor License Commissioners

A meeting of the board of license com-  
missioners was held at the Sanatorium  
hotel today, to consider applications for  
renewal of licenses. As a result the  
following licenses were recommended:  
Alexandra Hotel, Pincher City.  
Coleman Hotel, Coleman.  
Consolidated Hotel, Blairmore.  
Alberta Hotel, Blairmore.  
Rocky Mountain Sanatorium, Frank.  
Grand Union Hotel, Calgary.  
King Edward Hotel, Pincher Creek.  
Alberta Hotel, Pincher Creek.  
Union Hotel, Frank.  
Windsor Hotel, Lundbreck.  
Bellevue Hotel, Bellevue.  
Paseburg Hotel, Paseburg.  
Union Hotel, Hillcrest.  
Beaver Hotel, Beaver Creek.  
The Frank Wine & Spirit Co., whole-  
sale.

Thos. Brindford Besson, Bellevue,  
wholesale.

The application of the Murphy & Fryer  
Liquor Co., wholesale, Blairmore, ad-  
journing to place and date to be set by  
the department.

The license of the Frank Hotel and the  
Coleman Liquor Co. were recom-  
mended to be suspended.

The license would be granted to the  
Fairmont Hotel at Maple Leaf, subject to  
change of management satisfactory to  
the license department.

The license of the Frank Hotel would be  
cancelled on the grounds that it was  
not required for public convenience.  
Pincher Creek wholesale license was  
suspended temporarily.

Licenses would be granted the Blair-  
more Hotel, subject to satisfactory trans-  
fer.

Consideration of application of Cowley  
Hotel adjourned to place and date to be  
set by the department.

Reference to the application of the Southern  
Hotel at Bellevue.

Mr. W. F. Forster, chief license in-  
spector, was also present.

Mr. and Mrs. J. B. Reuter re-  
turned to Lethbridge on Monday  
from a trip through the Prairies.  
They spent several days with Mr.  
and Mrs. Scott, Mirgrove Ranch,  
Lundbreck.

## Frank Happenings

Who said Frank was dead?

Don't forget the big smoker on  
Saturday night.

Mr. and Mrs. E. Novin were  
Frank visitors on Tuesday.

John Delaney, of Bellevue, was a  
Frank visitor on Tuesday.

Messrs. W. F. McNeil and Lewis  
Stockett were in town this week.

Mr. Goodwin, of the Lethbridge  
iron works, was in town on busi-  
ness this week.

Mrs. Andy Good and Mrs. Scott,  
of Crow's Nest, were in town on  
Thursday.

The examination of fire-boosts  
was held at the Sanatorium on  
Wednesday.

EGGS FOR HATCHING.—Pur-  
chased White Wyandottes.—Apply  
to George Pattinson, Frank Laine  
Kiln.

J. C. Reid, general manager of  
Chinook Collieries, near Leth-  
bridge, was in town the early part  
of the week.

Parker is progressing favorably.  
He claims that the doctor ordered  
him to "indulge in nothing but  
rubarb pie."

Park will have Hillcrest at  
home on Saturday, when a good  
game is expected, as both teams  
are out to win.

We noticed a grey-eyed Nova  
Scotia sailing over the peaks of  
Jasper's Mountains on Tuesday.  
Early in the afternoon we discovered  
it was a Fleming bound down  
towards Hillcrest, where other  
bluenoses greeted him.

The "marrieds" played the  
"jingles" a game of football last  
night, when some fancy football  
was witnessed, and although the  
"singles" tried hard to get through,  
they always found "Old Danny"  
there between the sticks.

The Union hotel is now on its  
way west and resembles very much  
in appearance the sturdy "Rain-  
bow" of Canadian coast defense  
fame. Jack Boyce has not yet  
been sea-sick, and keeps busy at  
the pumps and hauling it out.

We wish to inform the public  
that we have a Travellers' Rest in  
Frank, under the proprietorship  
of Messrs. Parker, Pattinson and  
Marsh. Anyone in need of a  
"square" will please call at their  
eighty-eight-free and easy.

A chapter of the Eastern Star  
society has been instituted at Hill-  
crest. Mrs. D. S. Howe, of Frank,  
was elected worthy matron. The  
officers were installed on Monday  
night by Grand Patron Wallace  
Zweiner, of Calgary. Mrs. Zweiner  
was also present.

Rev. J. C. Anglin, of Hillcrest,  
occupied the pulpit at Knox Metho-  
dist church on Sunday night last,  
his subject of discourse being  
"Almost a Christian," from which  
he delivered a very forceful address.  
The new choir made its first ap-  
pearance before the congregation  
on this occasion, and the improve-  
ment made to the life of the service  
was much appreciated. During  
the service a solo was rendered by  
Mr. Dickens.

The basket social which is to be  
held on Monday evening next by  
the Frank football club, will be a  
banner affair. Mr. Legg, of Hill-  
crest, has again offered to favor  
the social with several good films  
to be put on the screen during the  
concert which is also to be of a  
high character. Mr. Pettie will  
also be present with his bagpipes.  
Tables will be provided for the use  
of those who do not dance and wish  
to amuse themselves at cards or  
other games. Everyone will be  
ensured a right good time, so come  
along and bring your friends.  
Tickets 50 cents.

Frank played Homer on the  
local grounds on Saturday evening  
last before a good crowd of rooters.  
Homer won, the "toss" and elected  
to kick down hill with a strong  
favorable wind. The game was  
fast for the first twenty minutes,  
but neither team could boast of  
any excellent form. Eventually  
Frank had the stronger battery.  
After thirty minutes play, Frank  
scored, and was leading at the in-  
terval by 1 to 0. In the second  
half Frank scored three and Hom-

## SYNOPSIS OF COASTING H.R. REGULATIONS

COASTING H.R. REGULATIONS. The regulations of the Dominion of  
the Maritime Provinces, which are in force in the Province of British Columbia,  
may be found in the form of a booklet for sale at the rate of 25c. per copy.  
The regulations are in force from the 1st of January, 1914, to the 31st of December, 1914.  
The regulations are in force from the 1st of January, 1914, to the 31st of December, 1914.

## Local and General

F. E. Hinds paid a business visit to Fernie this week.

Fritz Fuhr, of the Fairmont Hotel, was in town on Tuesday.

J. N. Petter paid a business visit to Lethbridge during the week.

Miss E. Welsh spent Sunday at her home in Lundbreck.

A young Blairmore couple are also interested in Elko fruit lands.

George Bradley, deputy mayor of Sentinel, was in town this week.

Neil McCaig, of Macleod, autoed to town the early part of the week.

Mrs. Watson, of Homer, paid a visit to her sister, Mrs. Gibeau, this week.

G. H. Whycherley is building a tenement house in the Pelletier addition.

Mrs. Kidd's maternity home, Box 95, Phone 151. Wedding cakes decorated.

Messrs. Maletts and Colosino have purchased the Poggiali stock of groceries, etc., at Coleman.

Colin Macleod, barkeeper, came up from Macleod the early part of the week.

Mike Rosse has been accused of exceeding the mile-a-minute rate with his "McLaughlin."

Miss Bamsmer, of Lundbreck, is visiting her sister, Mrs. McNeil at the local telephone exchange.

HOUSE FOR RENT—Apply to G. H. Whycherley, care F. M. Thompson Co.

WANTED to buy for cash. A good set of second-hand heavy single harness. Apply to "The Enterprise."

The Australian Amusement Company, who were given a rotten egg sent-off from Blairmore, went broke at Macleod.

Mrs. A. S. Baker, of Blairmore, was visiting in High River last week, the guest of Mrs. M. J. King.

High River Times.

The service at the Presbyterian church on Sunday night next will be for men only. [Lady friends may wait outside!]

Rumor has it that a \$40,000 brick building is to be erected on Victoria Street east, on which work will shortly commence.

M. B. Dawson, who recently left the Metropolitan for new fields, is now located at Fort George where he will settle with his family.

C. W. Johnston, of the Lyric theatre at Bellevue, who has just invested in an auto, toured through The Pass on Monday with a party.

Mr. and Mrs. W. M. Nichols, of McInnis Lumber Co., Crows' Nest, who have just returned from an extended trip to the United States, arrived in town yesterday.

The F. M. Thompson Co. have just unloaded a car of flour and feed, consisting of "Our Best" Flour, Wheat, Oats, Bran and Shorts. Prices are right.

The Blairmore Home Life Club held an enjoyable party at the home of Mrs. L. C. Gies on Wednesday night. About thirty couples attended and dancing was indulged in until the wee sma' hours o' morning.

A concert and social was given in the Presbyterian mission hall last night, and was well attended. The programme was short, but well rendered by members of the Bible Class, and other assistants. Mrs. B. Brown, of Lethbridge, favored the gathering with several interesting readings. Refreshments were served at the close and a collection was taken in aid of church funds.

Commencing last Monday a passenger coach was attached to the way-freight between Cranbrook and Crows' Nest, leaving Cranbrook at 7 o'clock a.m. on Mondays, Wednesdays and Fridays and returning on the same train on Tuesdays, Thursdays and Saturdays. While this train does not make fast time it will assist somewhat in alleviating the grievances over the discontinuance of the local. Passengers between all small stations along the route will be accommodated by this train.

The marriage of Samuel Charlton, of Hillcrest, to Miss Margaret May Nason, of Selly Park, England, will take place at the new Anglican church, Hillcrest, on Monday afternoon next. A reception will be held in the Masonic hall at 9 o'clock.

An automobile association was formed on Wednesday, whose main motto will be "Good Roads." The association's district extends from Crows' Nest to Furman and its membership will have about forty influential characters who will agitate for a better road through this district.

Fred Nahisi, who was arrested in Lethbridge on the charge of having tampered with the switch at Bellevue in February last, causing the death of Harry Thompson, a C.P.R. engineer, and who was taken to Bellevue for examination, came up for preliminary hearing at Macleod on Wednesday, and was remanded to next Wednesday, when the summary trial will take place. L. H. Putnam, of Blairmore, appears for the accused.

The general store of F. W. Morgan at Pincher City was destroyed by fire Sunday evening. The cause of the blaze was the overturning of a lamp. Before the flames and passengers left the station after the arrival of the 9:20 train, the flames were bursting from the windows, and in a short time the building and its contents were destroyed. Many citizens assisted the firemen, but owing to the lack of fire fighting apparatus, as well as of water, nothing could be done. The Morgan store for some time has been patronized by the U.F.A. Insurance of \$6,000 was carried on the stock and of \$4,000 on the building.

## Flour trial is essential but—it is not your work!

Flour varies from time to time in baking quality. This is because wheat, continually varies according to soil conditions, etc.

Therefore, if baking results are to be constantly high, baking tests are essential. It is unreasonable to expect you to make these tests at your expense.

So from each shipment of wheat delivered at our mills we take a ten pound sample. This is ground into flour. Bread is baked from the flour. If this bread is high in quality and large in quantity, we use the shipment. Otherwise we sell it.

By simply asking for **FLOUR** bearing this name you can always be sure of more bread and better bread.

## "More Bread and Better Bread" and "Better Pastry Too"

**Resolutions Easily Made**

Too many men seem to make resolutions to try to break them after they are like Shylock.

When Shylock came home very late on January 2, a cigar in his mouth and an odor of alcohol about him, his wife said bitterly:

"Only yesterday you swore off late hours, whiskey and tobacco, and now look at you! You've broken all three of your resolutions!"

"Well, dearie, what of it? said Shylock. It is but a voice. I can make others, can't I?"

**Anxious Mother—**Jack, you must remember to use your right hand more. I don't want you to become left-handed.

**Little Jack—**Don't worry, mamma. Some of the best pitchers in the league are left-handed.

**Admiration of American Hustle**

Clerks on skates, the latest American style of hustling may be recommended to sleepy business hours.

If a customer enters the stockroom of an engineering firm in New York (Mass.), and asks for a special article, a young man is notified and he hustles briskly down the floor on a pair of rollers.

In a flash he is back with the desired article and a good deal of time is saved.—**Pall Mall Gazette.**

**Success may ruin some persons, but that does not deter the strugglers up the ladder.**

**Dr. Morse's Indian Root Pills**

are just the right medicine for the kidneys. When they are congested—when their kidneys are out of order—when over-indulgence in some favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable. They never hurt, weaken or grip, like harsh purgatives. Cures your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They keep the Children Well.

W. N. U. 999

She's Almost Perfect

I have a stenographer now, proclaiming a promise: business man, she's pretty close to being a prize. She is always punctual, always neat, and her manners are perfect. She has a pleasant voice, she is nice to look at, and she doesn't chew gum. She never tries to get the young man in the office, and she is never impertinent.

Almost a prize, repeated one who was listening. Why, she's almost too good to be true. What's the matter with her?

She can't take dictation, and she doesn't know how to use a typewriter.

Well, a f.e.w. can't have everything perfect.

## LA GRIPPE'S VICTIMS

You Can Only Recover From Its After Effects by Enriching the Blood

Few diseases so shatter the health as the grippe, or influenza. It is not times all the time. They are left dependent, tired, weak, and without appetite, ambition or strength; can't sleep and suffer from headaches, backaches and nervousness. In this weakened condition life is real danger. The body falls all easy prey to pneumonia, influenza, diphtheria, consumption. Nearly every form of nervous trouble has been known to follow an attack of the grippe. Dr. Williams' Pink Pills give the quickest and most thorough relief from the grippe, and tone up the whole body. The following is an example of their power in cases of this kind. Mrs. R. McLean, Westworth Station, N. S., says: "Two years ago Herbert E. Freeman, a young boy living with us, was attacked with the grippe. At the time he did not have a strong constitution, and we feared the trouble was setting on his lungs. He was not able to walk fifty yards without being out of breath, and his general vitality was very low. For months he continued in this position, notwithstanding all we did for him, and it was at this crisis that we got Dr. Williams' Pink Pills for him. By the time he had used three boxes there was a noticeable improvement, and this was followed by his being able to do light work, and later he had all the strength of a growing boy. His cure was looked upon as remarkable by all who knew him, and I am giving the result in the hope that it may be of benefit to someone else."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 by Dr. Williams Medicine Co., Brockville, Ont.

It is a small country church in England that a little child was brought forward for baptism. The young minister, looking at the little one in his arms, spoke as follows:

Beloved therares no one can foretell the future of this child. He may grow up to be a great astronomer, like Sir Isaac Newton, or a great leader like John Burns; and it is possible he might become the prime minister of England.

Turning to the mother, he inquired: "What is the name of the child?"

Mary Ann, was the reply.

"A Marvelous Thing.—When the cures effected by Dr. Thomas' Electric Oil are considered, the speedy and permanent relief it has brought to the suffering wherever it has been used, it must be regarded as a marvelous thing that so potent a medicine should result from the six ingredients which enter into its composition. A trial will convince the most skeptical of its healing virtues."

**Court Humor**

Judge—You say you saw the prisoner strike the complainant. On what provocation?

Witness—Why, he pulled out a roll of bill, your honor.

Judge—And you mean to say the prisoner struck him for that?

Witness—Well, he struck him for some of it.

**To Cure a Cold in One Day**

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E.W. Grove's signature is on each box. 25c.

**Teacher—**Thomas, can you tell me how matches are made?

Small Tom—No, ma'am; but I don't blame you for trying to find out.

Teacher—Why what do you mean by that?

Small Thomas—Mother says you have been trying to make a match for years, but can't.

**What a Friend Can Do**

There are all sorts of friends—those who desert their companions in their hour of need; the fair-weather friend, who runs away when trouble comes along; but is always there when the sun shines; the deceitful friend; the loyal friend; the disloyal friend; the so on. Ask yourself which sort you are.

The friends worth while, who are a real pal in every sense of the word, will stick to her chum through thick and thin; no matter what the trouble is—no matter how her pal may encroach on her time, the true friend will be with her as far as lies in her power, and will do the best she can for her.

**For nursing mothers**

**Na-Dru-Co Laxatives**

offer the important advantage that they do not disturb the rest of the system or affect the child.

25c. a box at your Druggist's.

National Drug and Chemical Co. of Canada, Limited. 175

## The Transportation of Grain

(Continued from Last Week)

"Leaving Port Colborne the grain passes through Lake Ontario and the straits to Montreal, where it is elevated to the ocean vessel. This elevator floats on a barge, which gets between the two vessels. There is still another method of elevating the grain into the large ocean going vessels for the first method, generally speaking, is not practical. Usually the grain is elevated into the immense transfer houses, owned by the Montreal Harbor Commission, is carried along a long alleyway leading to all the docks, and is loaded on boats in the large ocean vessels."

"We should be proud of the splendid facilities for handling grain at Montreal. It is to be regretted that so little a proportion of Canadian grain goes by way of Montreal, but this is largely by reason of the fact that the canal is not deep enough to allow the big boats to take the grain entire route. The deepening of the Welland canal would help to enable the port at Montreal to take care of all Canadian grain."

"Taking a hurried trip across the Atlantic we find a new method of taking the grain out of the heart of the ocean vessel—the pneumatic elevator. Here the grain is dumped into the elevator, and run through a spout into a barge. It is interesting to note that there is very little grain that goes from Canada ever gets to land again until it gets to the doors of the mills. To unload the ocean vessels on to the docks involves an expense and the thirty English dealer avoids every possible unnecessary expense, so you see we have much to learn in reference to economical handling methods."

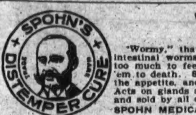

The tramp steamer does not figure to any great extent in the Canadian grain trade. Usually the boats carry the grain to the docks, and then the case the grain goes into the Liverpool barges carry the grain from the docks to the elevator where it is elevated up into the storage bins. The English elevators are of a different type than those in Canada. They are solidly built and are also more artistic—Another method of unloading the grain is by the use of the leg into the bows of the vessel. The grain is elevated and placed in the bins, but this method is not used to the point of destination. There is hardly any grain carried by water in the world as recognized as a necessity. I have yet to see a carload of grain on rail in Europe. Of course the same is the case in the United States, but this is the season is too short. In the 'northern countries of the world the grain is carried by rail as often as even there the grain is not shipped by rail. I believe it is one of the possible developments of a system of waterways for Western Canada should be investigated. If practicable grain could be transported by sea without doubt affected."

The Vernon mill in London, England, is one of the largest of its kind in the world. The ocean vessels can come right up alongside and discharge their cargoes. We have seen the grain used for milling in this mill. There was Australian, Argentine, Canadian and other grain. It was all of the best of the particular blend desired. Australian wheat brings a high price on the market, but the grain is not so good as the Canadian. There is a larger quantity of the hard glutenous Canadian type of wheat available. Australia is a good source of starch grain. If the time should come when there is less hard glutenous wheat than the soft wheat, the soft wheat can be characterized as the best wheat. The best wheat is that which really makes the best flour. A reser can come right from Buenos Ayres, and sail right up to Vernon's mill. No producer in the world pays so much to get his wheat to market as the Western Canadian farmer. In the case of the Argentine, one of our great competitors, the rail route is never more than 200 or 300 miles to the ocean port. In Australia, wheat is shipped by rail to the coast, and then a long water haul from Australia, but the cost of the water haul system which involves an expensive combination of rail, lake and ocean transport.

Of continent ports probably Rotterdam is the greatest importer of Canadian wheat. The rail route is only 220 miles to Rotterdam. Their boats here is that they can have a steady stream of grain to Rotterdam. And the system is the same as others, except that instead of storage tanks the grain is stored on the floor. The storage here is no humid for tanks so this other system is used."

Manheim, Germany, is one of the greatest milling centers in the world. Manheim is situated on the Rhine. It is interesting to note what the Germans have done with this turbulent river of theirs. They have developed at Manheim, a milling center, and it is possible that it is possible by reason of the cheap water available. At Antwerp, where the water is not so good, the owner, with a wife and family lives on board. They are engaged by the hour to take the grain to the mill, or will leave the barge tied up to the dock, with the grain in storage. This method is known, because the miller can give instructions to bring the grain for the mill, and is no cost of transfer.

My idea has been to show to the business men of Regina, the course of the grain from our province to the place where it is used. You have seen that it is a enormous sum of money transporting the grain to its destination. This tax is close to \$100 for every 1,000 bushels of grain. I am making no charge against the existing transportation facilities. I am making the statement that the tax is too much. The grain should be as far as possible remain in the one storage vessel until it reaches its destination. Every time that grain is transferred it means an increased cost, a cost which the producer on the prairie must bear. I think it is time that the business men of Western Canada woke up to see what it means to them to have the cost of transporting grain reduced. We

will have a big population in the West. Although mining farming may be very profitable and will grow to a greater extent as the years go by, still we cannot ignore the fact that the automobile is a principle product of this province for very many years to come. We have used the people here to eat it, and for a number of years to come we must export it. If we have to export it we must take the most economical way to do so.

**Automobile Alarm**

An inventor has designed an alarm for automobiles with the object of discouraging the car thief. It is claimed that tampering with the car in any manner without first using the key which controls the device releases the alarm, rings the forty-eight hour short-circuit the ignition wires, and turns off the petrol. Since it is claimed that the alarm cannot be stopped until two whole days have passed, a thief could not get very far with his stolen car.

**ARE YOU ONE OF THE UNFORTUNATES**

WITH BACKACHE, HEADACHE AND THAT TIRED FEELING

If so, Listen to the Story of George F. Stander, and Use Dodd's Kidney Pills.

Handworth, Sask. (Special).—If you are one of those unfortunates who suffer from sore back, headache and that tired feeling, the fact that makes work a hardship and life not worth living, the story of Geo. F. Stander, a well-known young man in this place, will interest you.

"For nearly ten years," Mr. Stander says, "I suffered from backache and headache. I had a bad taste in my mouth in the morning, and I was in trouble, and decided to try Dodd's Kidney Pills. I got half dozen boxes and before I had finished taking them I was completely cured."

Mr. Stander's advice is that if you are one of those unfortunates who suffer from backache, headache and that tired feeling, the fact that makes work a hardship and life not worth living, the story of Geo. F. Stander, a well-known young man in this place, will interest you.

Healthy kidneys strain all impurities, all the acids of disease, out of the blood. Weak kidneys leave these impurities in the blood, and the result is nervousness, tired feeling, backache and aches that often lead into Diabetes and Bright's Disease. Dodd's Kidney Pills make weak kidneys strong and healthy."

**Our Old Folks**

Some of our newspapers have drawn conclusions from the census reports that our people are generally young; but they failed to reckon with our old folks. In the 7,260, 643 who make up the population of Canada there are included 412,421 non-negatives and 422,329 non-negatives. And the census officers discovered twenty centuries—La Patrie.

Mamma, said a bright little four-year-old whose mother was a widow, "I wish you'd do me a favor and marry the man who keeps the candy store on the corner."

**"CATARRHOZONE" PREVENTS BAD COLDS**

**STRENGTHENS WEAK IRRITABLE THROATS**

Employers Nature's Own Methods and is Invariably Successful.

Few will escape a cold this winter, but almost every cold runs into Catarrh.

Neglected Catarrh is the straight gateway to consumption.

Catarrh is a germ-sickness—desires microbe that the catarrh is. It has a cold soothes, relieves the cough, gives throat and lungs a healthy condition, the catarrh clears out the phlegm.

You feel better in an hour. In a day you are completely relieved, and on the curing of Catarrh you feel your way.

No treatment so direct. Catarrh one goes right to the spot—acts quickly everywhere.

**WORMS**

"Worms," that's what the matter of "em. Stomach and intestines. Nearly as bad as distemper. You see too much to feed 'em. Look back and you'll find 'em to death. Spavin's Cure will remove the worms, improve the appetite, and tone up all round the system. Acts on glands and blood. Full directions with each bottle, and each bottle of Spavin's Cure.
